

Skuttle Appoints Executive Vice President

MARIETTA – Skuttle Indoor Air Quality Products is proud to announce that Leah Thomas has been appointed as Executive Vice President of the company.

Ms. Thomas joined Skuttle in September 2016 as the Vice-President of Sales and Marketing. Under her leadership, while working closely with President and CEO Davis Powers, she has been responsible for helping Skuttle undergo several major improvements. These improvements include a whole new corporate identity, new product developments, and marketing strategies. Leah has also focused on bringing Skuttle to the forefront of the IAQ industry by working closely with their Manufacturer's Rep Agencies and customers across North America and Canada.

Leah was instrumental in Marketing developments and promoting the company's 100th year anniversary. Leah brings with her proven results, determination, and a team oriented work ethic that is crucial to the industry. She welcomes the opportunities and challenges that this new position offers but says she is excited and looks forward to her continued partnership with the outstanding team of HVAC Reps, Distributors, and Contractors to make Skuttle the industry leader today and well into the future.

About Skuttle
